The Arms Trade Treaty: A Commentary Andrew Clapham 2016-07-28 The United Nations Arms Trade Treaty became binding international law in late 2014, and although the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by States Parties, there exists controversy as to the meaning of certain key provisions. Furthermore, the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty, but does not detail how such a body should be established and how it should effectively function. The Arms Trade Treaty: A Commentary explains in detail each of the treaty provisions, the parameters for prohibitions or the denial of transfers, international cooperation and assistance, and implementation obligations and mechanisms. As states ratify and implement the Treaty over the next few years, the commentary provides invaluable guidance to government officials, commentators, and scholars on the meaning of its contentious provisions. This volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the Arms Trade Treaty regulates. It covers international human rights, trade, disarmament, humanitarian law, criminal law, and state-to-state use of force, as well as the application of the treaty to non-state actors.

Ethnomethodology at Play Peter Tolmie 2016-04-29 This book outlines the specific character of the ethnomethodological approach to 'play'; that is, to everyday sport and leisure activities that people generally engage in for enjoyment, at home or as a 'hobby'. With chapters on cooking, running, playing music, dancing, rock climbing, sailing, fly fishing and going out for the day as a family, *Ethnomethodology at Play* provides an introduction to the key conceptual resources drawn upon by ethnomethodology in its studies of these activities, whilst exploring the manner in which people 'work' at their everyday leisure. Demonstrating the breadth of ethnomethodological analysis and showing how no topic is beyond ethnomethodology's fundamental respecification, *Ethnomethodology at Play* sets out for the serious reader and researcher the precise contribution of ethnomethodology to sociological studies of

sport and leisure and ordinary domestic pastimes. As such this groundbreaking volume constitutes a significant contribution to both ethnomethodology and sociology in general, as well as to the sociology of sport and leisure, the sociology of domestic and daily life and cultural studies.

The Columbia Guide to Social Work Writing Warren J. Green 2012 Social work practitioners write for a variety of publications, and they are expected to show fluency in a number of related fields. Whether the target is a course instructor, scholarly journal, fellowship organization, or general news outlet, social workers must be clear, persuasive, and comprehensive in their writing, especially on provocative subjects. This first-of-its-kind guide features top scholars and educators providing a much-needed introduction to social work writing and scholarship.

Foregrounding the process of social work writing, the coeditors particularly emphasize how to think about and approach one's subject in a productive manner. The guide begins with an overview of social work writing from the 1880s to the present, and then follows with ideal strategies for academic paper writing, social work journal writing, and social work research writing. A section on applied professional writing addresses student composition in field education, writing for and about clinical practice, the effective communication of policy information to diverse audiences, program and proposal development, advocacy, and administrative writing. The concluding section focuses on specific fields of practice, including writing on child and family welfare, contemporary social issues, aging, and intervention in global contexts. Grounding their essays in systematic observations, induction and deduction, and a wealth of real-world examples, the contributors describe the conceptualization, development, and presentation of social work writing in ways that better secure its power and relevance.

Renewing the Search for a Monetary Constitution Lawrence H. White 2015-02-16 Over 50 years ago, *In Search of a Monetary Constitution*, which focused on the need for constraints on the creation of money by the government, was published. Although overlooked at the time, the work's analysis has proven to be remarkably prescient. This new collection of essays, *Renewing the Search for a Monetary Constitution: Reforming Government's Role in the Monetary System*, commemorates the 50th anniversary of the first edition by revisiting and re-energizing the original intent. Since the publication of the original book, central banks have delivered neither sound money nor real growth; instead, chronic inflation and a series of booms and busts have prevailed. In this new collection, scholars call for monetary reform centered on the debate over creating constitutional provisions that empower government versus provisions that prohibit government interference with money. The aim of *Renewing the Search for a Monetary Constitution* is to revitalize public discussion of constitutional monetary reform. It's a must-read for anyone who wants to change the domination of our monetary system by the government.

The Collective Naval Defence of Empire, 1900-1940 Nicholas Tracy 2020-11-25 This collection of high policy documents charts Britain's difficulties in defending the Empire in a time of 'imperial overstretch'. The 20th century saw the rise of several great maritime and military powers and the relative decline of British strength, which created major defence problems for the British Empire. Various solutions were attempted, such as ententes with France and Russia, the settling of differences with the USA and an alliance with Japan. These sufficed until after World War I, when the Empire gained several new territorial responsibilities, all to be defended on a declining economic base. The dominions were encouraged to pay for their own navies, although the Admiralty wished to assume control of them. The increasing threat from Japan made Australia, New Zealand and other Asian colonies nervous and the promised 'main fleet to Singapore' became less and less likely as the 1930s wore on.

Public Policy Vishal Narain 2018-05-03 Over the last thirty years, several disciplines and sub-disciplines have emerged to deepen our understanding of public policy. However, this literature is dominated by western scholarship and has developed within the context of American and (Western) European public institutions. Efforts to place this literature in the context of the global South have been conspicuous by their absence. This book seeks to bridge this gap by placing this literature in the context of Indian public policy processes and reviews key concepts, theories and models that are employed in the study for students of public policy, policy change and administration and governance and management. It aims to shape our understanding of public policy processes as developed across several disciplines and study them within the Indian context, explaining most ideas and concepts with reference to India and the global South.

Regionalism, Security and Development in Africa Ernest Tooche Aniche 2021-04-30 This book charts the history and contemporary landscape of African regionalism, investigating how regional cooperation can be used to help to tackle security and development challenges in Africa. Africa has a long tradition of regional cooperation, with the oldest trade and monetary integration schemes in the developing world, but its colonial period and partition of have caused lasting damage that still be seen in today's African economies. Contemporary post-colonial African regionalism, deeply rooted in notions of pan-Africanism, has served as a means of collective self-reliance and economic transformation and development. This book starts with the history and theory behind African regionalism before discussing and comparing regional organisations such as the Economic Community of Central African States (ECCAS), the Economic Community of West African States (ECOWAS), the Community of Sahel-Saharan States (CEN-SAD), Southern African Development Community (SADC), the Common Market for Eastern and Southern Africa (COMESA) and the East African Community (EAC). Finally, the book considers how regional integration and cooperation can help to address security and development challenges. This ambitious and broad-ranging book will be a valuable resource for researchers working on African regionalism, security, African integration and development, and comparative regionalism. Policymakers should also consider it a useful guide to the background and contemporary landscape of African regionalism.
