In the Event of Women Tani Barlow 2021-10-22 In the Event of Women outlines the stakes of what Tani Barlow calls “the event of women.” Focusing on the era of the late nineteenth century through the mid-twentieth century’s Cultural Revolution, Barlow shows that an event is a politically inspired action to install a newly discovered truth, in this case the mammal origins of human social evolution. Highbrow and lowbrow social theory circulating in Chinese urban print media placed humanity’s origin story in relation to commercial capital’s modern advertising industry and the conclusion that women’s liberation involved selling, buying, and advertising industrial commodities. The political struggle over how the truth of women in China would be performed and understood, Barlow shows, means in part that an event of women was likely global because its truth is vested in biology and physiology. In so doing, she reveals the ways in which historical universals are effected in places where truth claims are not usually sought. This book reconsiders Alain Badiou’s concept of the event; particularly the question of whose political moment marks newly discovered truths.

*Night Sky with Exit Wounds* Ocean Vuong 2016-05-23 Winner of the 2016 Whiting Award One of Publishers Weekly’s “Most Anticipated Books of Spring 2016” One of Lit Hub’s “10 must-read poetry collections for April” “Reading Vuong is like watching a fish move: he manages the varied currents of English with muscled intuition. His poems are by turns graceful and wonderstruck. His lines are both long and short, his pose narrative and lyric, his diction formal and insouciant. From the outside, Vuong has fashioned a poetry of inclusion.”—The New Yorker “Night Sky with Exit Wounds establishes Vuong as a fierce new talent to be reckoned with...This book is a masterpiece that captures, with elegance, the raw sorrows and joys of human existence.”—Buzzfeed’s “Most Exciting New Books of 2016” “This original, sprightly wordsmith of tumbling pulsing phrases pushes poetry to a new level...A stunning introduction to a young poet who writes with both assurance and vulnerability. Visceral, tender and lyrical, fleet and agile, these poems unflinchingly face the legacies of violence and cultural displacement but they also assume a position of wonder before the world.”—2016 Whiting Award citation “Night Sky with Exit Wounds is the kind of book that soon becomes worn with love. You will want to crease every page to come back to it, to underline every other line because each word resonates with power.”—LitHub “Vuong’s powerful voice explores passion, violence, history, identity—all with a tremendous humanity.”—Slate “In his impressive debut collection, Vuong, a 2014 Ruth Lilly fellow, writes beauty into—and culls from—individual, familial, and historical traumas. Vuong exists as both observer and observed throughout the book as he explores deeply personal themes such as poverty, depression, queer sexuality, domestic abuse, and the various forms of violence inflicted on his family during the Vietnam War. Poems float and strike in equal measure as the poet strives to transform pain into clarity. Managing this balance becomes the crux of the collection, as when he writes, ‘Your father is only your father/ until one of you forgets. Like how the spine/ won’t remember its wings/ no matter how many times our knees/ kiss the pavement.’”—Publishers Weekly “What a treasure [Ocean Vuong] is to us. What a perfume he’s crushed and rendered of his heart and soul. What a gift this book is.”—Li-Young Lee Torso of Air Suppose you do change your life. & the body is more than a portion of night—sealed with bruises. Suppose you woke & found your shadow replaced by a black wolf. The boy, beautiful & gone. So you take the knife to the wall instead. You carve & carve until a coin of light appears & you get to look in, at last, on happiness. The eye staring back from the other side— waiting. Born in Saigon, Vietnam, Ocean Vuong attended Brooklyn College. He is the author of two chapbooks as well as a full-length collection, *Night Sky with Exit Wounds*. A 2014 Ruth Lilly Fellow and winner of the 2016 Whiting Award, Ocean Vuong lives in New York City, New York.

*U.S. Health in International Perspective* National Research Council 2013-04-12 The United States is among the wealthiest nations in the world, but it is far from the healthiest. Although life expectancy and survival rates in the United States have improved dramatically over the past century, Americans live shorter lives and experience more injuries and illnesses than people in other high-income countries. The U.S. health disadvantage cannot be attributed solely to the adverse health status of racial or ethnic minorities or poor people: even highly advantaged Americans are in worse health than their counterparts in other, “peer” countries. In light of the new and growing evidence about the U.S. health disadvantage, the National Institutes of Health asked the National Research Council (NRC) and the Institute of Medicine (IOM) to convene a panel of experts to study the issue. The Panel on Understanding Cross-National Health Differences Among High-Income Countries examined whether the U.S. health disadvantage exists across the life span, considered potential explanations, and assessed the larger implications of the findings. U.S. Health in International Perspective presents detailed evidence on the issue, explores the possible explanations for the shorter and less healthy lives of Americans than those of people in comparable countries, and recommends actions by both government and nongovernment agencies and organizations to address the U.S. health disadvantage.

Walking the Walk - A Karma Yoga Manual Swami Tyagananda 2014-07-14 In this book the author, Swami Tyagananda, has attempted to bring together Swami Vivekananda’s insights related to the study and practice of karma yoga. The book can be read as a commentary on Swamiji’s teachings on karma yoga. The endnotes in this book point to glowing words [in Swamiji’s karma yoga lectures] in order to encourage the reader to make an independent study of the original books. The structure of this book is simple. The introductory chapter explores the meaning and scope of yoga. It also examines Vivekananda’s classification of yoga into four categories, showing how it cuts across religious boundaries and provides a genuinely universal way to understand spiritual disciplines. The second chapter examines the elements of the karma theory essential to understanding the method of karma yoga. Each of Vivekananda’s four yogas has a “key” with which to unlock its potential. The key to karma yoga is detachment, which is the focus of the third chapter.

*Evidence-based Medicine* Sharon E. Straus 2005 The accompanying CD-ROM contains clinical examples, critical appraisals and background papers.

*Down to Earth* Bruno Latour 2018-11-26 The present ecological mutation has organized the whole political landscape for the last thirty years. This could explain the deadly cocktail of exploding inequalities, massive deregulation, and conversion of the dream of globalization into a nightmare for most people. What holds these three phenomena together is the conviction, shared by some powerful people, that the ecological threat is real and that the only way for them to survive is to abandon any pretense at sharing a common future with the rest of the world. Hence their flight offshore and their massive investment in climate change denial. The Left has been slow to turn its attention to this new situation. It is still organized along an axis that goes from investment in local values to the hope of globalization and just at the time when, everywhere, people dissatisfied with the ideal of modernity are turning back to the protection of national or even ethnic borders. This is why it is urgent to shift sideways and to define politics as what leads toward the Earth and not toward the global or the national. Belonging to a territory is the phenomenon most in need of rethinking and careful redescription; learning new ways to inhabit the Earth is our biggest challenge. Bringing us down to earth is the task of politics today.

This comprehensively revised and updated fourth edition arrives at a time when the realm of interpersonal communication has attracted immense attention. Recent research showing the potency of communication skills for success in many walks of life has stimulated considerable interest in this area, both from academic researchers, and from practitioners whose day-to-day work is so dependent on effective social skills. *Organization and Financing of Public Health Services in Europe* Who Regional Office for Europe 2018-05 What are public health services? Countries across Europe understand what they are, or what they should include, differently. This study describes the experiences of nine countries, detailing the ways they have opted to organize and finance public health services and train and employ their public health workforce. It covers England, France, Germany, Italy, the Netherlands, Slovenia, Sweden, Poland and the Republic of Moldova, and aims to give insights into current practice that will support decision-makers in their efforts to strengthen public health capacities and services. Each country chapter captures the historical background of public health services and the context in which they operate; sets out the main organizational structures; assesses the sources of public health financing and how it is allocated; explains the training and employment of the public health workforce; and analyzes existing frameworks for quality and performance assessment. The study reveals a wide range of experience and variation across Europe and clearly illustrates two fundamentally different approaches to public health services: integration with curative health services (as in Slovenia or Sweden) or organization and provision through a separate parallel structure (Republic of Moldova). The case studies explore the context that explain this divergence and its implications. This study is the result of close collaboration between the European Observatory on Health Systems and Policies and the WHO Regional Office for Europe, Division of Health Systems and Public Health. It accompanies two other Observatory publications Organization and financing of public health services in Europeand The role of public health organizations in addressing public health problems in Europe: the case of obesity, alcohol and antimicrobial resistance(both forthcoming).

**Hag-Seed** Margaret Atwood 2016-10-11 NEW YORK TIMES BESTSELLER • The beloved author of *The Handmaid’s Tale* reimagines Shakespeare’s final, great play, *The Tempest*, in a gripping and emotionally rich novel of passion and revenge. “A marvel of gorgeous yet economical prose, in the service of a story that’s utterly heartbreaking yet pierced by humor, with a plot that retains considerable subtlety even as the original’s back story falls neatly into place.”—The New York Times Book Review Felix is at the top of his game as artistic director of the Makeshveg Theatre Festival. Now he’s staging a*Tempest* like no other: not only will it boost his reputation, but it will also heal emotional wounds. Or that was the plan. Instead, after an act of unforeseen treachery, Felix is living in exile in a backwoods hovel, haunted by memories of his beloved lost daughter, Miranda. And also brewing revenge, which, after twelve years, arrives in the shape of a theatre course at a nearby prison. Margaret Atwood’s novel take on Shakespeare’s play of enchantment, retribution, and second chances leads us on an interactive, illusion-ridden journey filled with new surprises and wonders of its own. Praise for Hag-Seed “What makes the book thrilling, and hugely pleasurable, is how closely Atwood hews to Shakespeare even as she casts her own potent charms, rap-composition included. . . . Part Shakespeare, part Atwood, Hag-Seed is a most delicate monster—and that’s ‘delicate’ in the 17th-century sense. It’s delightful.”—Boston Globe “Atwood has designed an ingenious doubling of the plot of *The Tempest*: Felix, the usurped director, finds himself cast by circumstances as a real-life version of Prospero, the usurped Duke. If you know the play well, these echoes grow stronger when Felix decides to exact his revenge by conjuring up a new version of *The Tempest* designed to overwhelm his enemies.”—Washington Post “A funny and heartwarming tale of revenge and redemption . . . Hag-Seed is a remarkable contribution to the canon.”—Bustle

*Italo Calvino* Italo Calvino 2014-05-04 This is the first collection in English of the extraordinary letters of one of the great writers of the twentieth century. Italy’s most important postwar novelist, Italo Calvino (1923-1985) achieved worldwide fame with such books as *Cosmicomics*, *Invisible Cities*, and *If on a Winter’s Night a Traveler*. But he was also an influential literary critic, an important literary editor, and a masterful letter writer whose correspondents included Umberto Eco, Primo Levi, Gore Vidal, Leonardo Sciascia, Natalia Ginzburg, Michelangelo Antonioni, Pier Paolo Pasolini, and Luciano Berio. This book includes a generous selection of about 650 letters, written between World War II and the end of Calvino’s life. Selected and introduced by Michael Wood, the letters are expertly rendered into English and annotated by well-known Calvino translator Martin McLaughlin. The letters are filled with insights about Calvino’s writing and that of others; about Italian, American, English, and French literature; about literary criticism and literature in general; and about culture and politics. The book also provides a kind of autobiography, documenting Calvino’s Communism and his resignation from the party in 1957, his eye-opening trip to the United States in 1959-60, his move to Paris (where he lived from 1967 to 1980), and his trip to his birthplace in Cuba (where he met Che Guevara). Some lengthy letters amount almost to critical essays, while one is an appropriately brief defense of brevity, and there is an even shorter, reassuring note to his parents written on a scrap of paper while he and his brother were in hiding during the antifascist Resistance. This is a book that will fascinate and delight Calvino fans and anyone else interested in a remarkable portrait of a great writer at work.

**Thinking Its Presence** Dorothy Wang 2015-01-01 When will American poetry and poetics stop viewing poetry by racialized persons as a secondary subject within the field? Dorothy J. Wang makes an impassioned case that now is the time. *Thinking Its Presence* calls for a radical rethinking of how American poetry is being read today, offering its own reading as a roadmap. While focusing on the work of five contemporary Asian American poets—Li-Young Lee, Marilyn Chin, John Yau, Mei-mei Berssenbrugge, and Pamela Lu—the book contends that aesthetic forms are inseparable from social, political, and historical contexts in the writing and reception of all poetry.
