

Modern East Asia A Brief History Second Edition

Right here, we have countless ebook **Modern East Asia A Brief History Second Edition** and collections to check out. We additionally have the funds for variant types and as well as type of the books to browse. The agreeable book, fiction, history, novel, scientific research, as without difficulty as various other sorts of books are readily reachable here.

As this Modern East Asia A Brief History Second Edition, it ends going on bodily one of the favored books Modern East Asia A Brief History Second Edition collections that we have. This is why you remain in the best website to look the unbelievable ebook to have.

Modern East Asia Conrad Schirokauer 2008
Modern East Asia: A Brief History.

Pre-Modern East Asia: A Cultural, Social, and Political History, Volume I: To 1800

Patricia Buckley Ebrey 2013-01-01 Written by top

scholars in the field, PRE-MODERN EAST ASIA: A CULTURAL, SOCIAL, AND POLITICAL HISTORY, VOLUME I: To 1800, 3E delivers a comprehensive cultural, political, economic, and intellectual history of East Asia, while focusing on the narratives and histories of China, Japan, and

Korea in a larger, global context. Full color inserts on such topics as food, clothing, and art objects illustrate the rich artistic heritage of East Asia. A range of primary source documents is included throughout, while intriguing biographical sketches highlight the lives of popular figures as well as ordinary people. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Asia as Method Kuan-Hsing Chen 2010-03-26 Centering his analysis in the dynamic forces of modern East Asian history, Kuan-Hsing Chen recasts cultural studies as a politically urgent global endeavor. He argues that the intellectual and subjective work of decolonization begun across East Asia after the Second World War was stalled by the cold war. At the same time, the work of deimperialization became impossible to imagine in imperial centers such as Japan and the United States. Chen contends that it is now necessary to resume those tasks, and that

decolonization, deimperialization, and an intellectual undoing of the cold war must proceed simultaneously. Combining postcolonial studies, globalization studies, and the emerging field of “Asian studies in Asia,” he insists that those on both sides of the imperial divide must assess the conduct, motives, and consequences of imperial histories. Chen is one of the most important intellectuals working in East Asia today; his writing has been influential in Taiwan, South Korea, Hong Kong, Japan, Singapore, and mainland China for the past fifteen years. As a founding member of the Inter-Asia Cultural Studies Society and its journal, he has helped to initiate change in the dynamics and intellectual orientation of the region, building a network that has facilitated inter-Asian connections. *Asia as Method* encapsulates Chen’s vision and activities within the increasingly “inter-referencing” East Asian intellectual community and charts necessary new directions for cultural studies.

Empires at War Francis Pike 2011-02-28 As the

major geopolitical power bloc, Asia - with 4 billion people, two-thirds of the world's population, a huge land-mass and the fastest-growing economies - has shifted the global political balance. "Empires at War" gives a dramatic narrative account of how 'Modern Asia' came into being. Ranging over the whole of Asia, from Japan to Pakistan, the modern history of this important region is placed in the context of the struggle between America and the Soviet Union. Francis Pike shows that America's domination of post-war Asia was a continuation of a 100-year competition for power in the region. He also argues cogently that, contrary to the largely 'Western-centric' viewpoint, Asian nations were not simply the passive and biddable entities of the superpowers, but had a political development which was both separate and unique, with a dynamic that was largely independent of the superpower conflict. And, in conclusion, the book traces the unwinding of American influence and the end of its Empire - a crucial development in

international history which is already having repercussions throughout the world. *Sources of East Asian Tradition: The modern period* Wm. Theodore De Bary 2008 In *Sources of East Asian Tradition*, Wm. Theodore de Bary offers a selection of essential readings from his immensely popular anthologies *Sources of Chinese Tradition*, *Sources of Korean Tradition*, and *Sources of Japanese Tradition* so readers can experience a concise but no less comprehensive portrait of the social, intellectual, and religious traditions of East Asia. Volume 2 covers major events from 1600 to the present, including the initial contact of China, Korea, and Japan with the West; nineteenth- and twentieth-century reform movements in China, along with the Nationalist and Communist revolutions; Korea's encounter with imperialist Japan; and the Meiji Restoration, the emergence of political parties and liberalism, and the Sino-Japanese and Russo-Japanese wars. De Bary maintains his trademark balance of source materials, including seminal readings in

the areas of history, society, politics, education, philosophy, and religion, thereby continuing his own tradition of providing an exceptional resource for teachers, scholars, students, and the general reader.

Modern East Asia Patricia Buckley Ebrej 2009 "A comprehensive history of East Asia, including extensive coverage of the region's cultural, political, economic, and social history. Coverage focuses on the narratives of China, Japan, and Korea while examining the history of each society in a larger, global context."--Back cover.

Gender, Health, and History in Modern East Asia Angela Ki Che Leung 2017-11-22 This groundbreaking volume captures and analyzes the exhilarating and at times disorienting experience when scientists, government officials, educators, and the general public in East Asia tried to come to terms with the introduction of Western biological and medical sciences to the region. The nexus of gender and health is a compelling theme, for this is an area in which

private lives and personal characteristics encounter the interventions of public policies. The nine empirically based studies by scholars of history of medicine, sociology, anthropology, and STS (science, technology, and society), spanning Japan, Korea, China, Taiwan, and Hong Kong from the 1870s to the present, demonstrate just how tightly concerns with gender and health have been woven into the enterprise of modernization and nation-building throughout the long twentieth century. The concepts of "gender" and "health" have become so commonly used that one might overlook that they are actually complicated notions with vexed histories even in their native contexts. Transposing such terminologies into another historical or geographical dimension is fraught with problems, and what makes the East Asian cases in this volume particularly illuminating is that they present concepts of gender and health in motion. The studies show how individuals and societies made sense of modern scientific discourses on

diseases, body, sex, and reproduction, redefining existing terms in the process and adopting novel ideas to face new challenges and demands. “Whether reviewing the comparative national histories of birth control, debating early cases of transsexual surgery, or highlighting the resurgence of ‘traditional’ Asian medical commodities, this volume provides accessible and productive studies on these intriguing topics in Asia. Scholars of modern East Asia and indeed anyone concerned with the analysis of gender and health in light of intersecting postcolonial studies will find the book rewarding.” —Rayna Rapp, New York University “A bold and important volume that explores the interweaving of gender, body, and modernity throughout East Asia. With vivid articles on sexuality, reproductive technologies, and sexual identities, the book opens multiple possibilities for how ‘Asia as method’ can shine new light on persistent theoretical questions from biopower to biocitizenship.” —Ruth Rogaski, Vanderbilt

University

A Brief History of Chinese and Japanese Civilizations Conrad Schirokauer 2012-01-01

This compelling text explores the development of China and Japan through their art, religion, literature, and thought as well as through their economic, political, and social history. The author team combines strong research with extensive classroom teaching experience to offer a clear, consistent, and highly readable text that is accessible to students with no previous knowledge of the history of East Asia. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

[A Brief History of Japanese Civilization](#) Conrad Schirokauer 2012-01-01 This compelling text explores the development of Japan through its art, religion, literature, and thought as well as through its economic, political, and social history. The author team combines strong research with extensive classroom teaching experience to offer

a clear, consistent, and highly readable text that is accessible to students with no previous knowledge of the history of Japan. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Religion and the Making of Modern East Asia

Thomas David DuBois 2011-04-18 Religious ideas and actors have shaped Asian cultural practices for millennia and have played a decisive role in charting the course of its history. In this engaging and informative book, Thomas David DuBois sets out to explain how religion has influenced the political, social, and economic transformation of Asia from the fourteenth century to the present. Crossing a broad terrain from Tokyo to Tibet, the book highlights long-term trends and key moments, such as the expulsion of Catholic missionaries from Japan, or the Taiping Rebellion in China, when religion dramatically transformed the political fate of a nation. Contemporary chapters reflect on the wartime deification of the

Japanese emperor, Marxism as religion, the persecution of the Dalai Lama, and the fate of Asian religion in a globalized world.

East Asia: A Cultural, Social, and Political History Patricia Buckley Ebrey 2013-01-01

Written by top scholars in the field, EAST ASIA: A CULTURAL, SOCIAL, AND POLITICAL HISTORY, 3E delivers a comprehensive cultural, political, economic, and intellectual history of East Asia, while focusing on the narratives and histories of China, Japan, and Korea in a larger, global context. Full color inserts on such topics as food, clothing, and art objects illustrate the rich artistic heritage of East Asia. A range of primary source documents spotlights women's independence, students-turned-soldiers, and other stirring issues, while intriguing biographical sketches throughout highlight the lives of popular figures and ordinary people alike. East Asia, the Modern Transformation John King Fairbank 1968

The International History of East Asia, 1900-1968 Antony Best 2009-12-18 This book provides a broad account of the international history of East Asia from 1900 to 1968 - a subject that is essential to any understanding of the modern epoch. Whereas much of the scholarship on this subject has focused purely on the immediate origins and consequences of violent events such as wars and revolutions, this book demonstrates the importance of also considering other forces such as ideology, trade and cultural images that have helped shape East Asian international history. It analyses how the development of the region was influenced by ideological competition and 'orientalism', by both multilateral and unilateral efforts to instil order, and by the changing nature of international trade. It considers a number of important topics such as the concept of the 'open door'; the rise and influence of progressive internationalism in

the forum of the League of Nations; the development of anti-colonial nationalism and anti-Western internationalism in the shape of pan-Asianism; and the onset of the Cold War. It also includes detailed case studies of subjects including the administration of the Chinese Maritime Customs Service; the international effort to regulate the trade in opium; and the significance of intra-Asian trade. Overall, this book constitutes an impressive account of the international history of East Asia, and is an important contribution to the interpretive study of this crucial period of history.

The Book Worlds of East Asia and Europe, 1450-1850 Joseph P. McDermott 2015-10-01 This volume provides the first comparative survey of the relations between the two most active book worlds in Eurasia between 1450 and 1850. Prominent scholars in book history explore different approaches to publishing, printing, and book culture. They discuss the extent of technology transfer and book distribution

between the two regions and show how much book historians of East Asia and Europe can learn from one another by raising new questions, exploring remarkable similarities and differences in these regions' production, distribution, and consumption of books. The chapters in turn show different ways of writing transnational comparative history. Whereas recent problems confronting research on European books can instruct researchers on East Asian book production, so can the privileged role of noncommercial publications in the East Asian textual record highlight for historians of the European book the singular contribution of commercial printing and market demands to the making of the European printed record. Likewise, although production growth was accompanied in both regions by a wider distribution of books, woodblock technology's simplicity and mobility allowed for a shift in China of its production and distribution sites farther down the hierarchy of urban sites than was common in Europe. And, the

different demands and consumption practices within these two regions' expanding markets led to different genre preferences and uses as well as to the growth of distinctive female readerships. A substantial introduction pulls the work together and the volume ends with an essay that considers how these historical developments shape the present book worlds of Eurasia. "This splendid volume offers expert new insight into the ways of producing, financing, distributing, and reading printed books in early modern Europe and East Asia. This is comparative history at its best, which leaves us with a better understanding of each context and of the challenges common to book cultures across space and time." —Ann Blair, author of *Too Much to Know: Managing Scholarly Information before the Modern Age* and professor of history, Harvard University "This engrossing account of the history of the book by leading specialists on the European and East Asian publishing worlds takes stock of what we

know—and how much we still need to know—about the places that books had in the lives of our early modern forebears. Each chapter is masterful state-of-the-field coverage of its subject, and together they set a new standard for future studies of the book, *East and West*.”

—Timothy Brook, author of *The Troubled Empire: China in the Yuan and Ming Dynasties*
[East Asia and the West](#) Xiao Bing Li 2019-09-14
East Asia and the West: An Entangled History provides readers with a comprehensive overview of modern East Asian civilizations. The text demonstrates how China, Korea, Japan, and Vietnam developed into modern nations through interactions with Western ideas and military power. Part One of the text provides an overview and historical background of premodern East Asia, highlighting differences and similarities between China, Korea, Japan, and Vietnam, and significant partnerships and innovations from the 1500s to the 1800s. In Part Two, students learn why certain areas adopted an isolationist policy

against Western influence, while others welcomed the influence. Part Three focuses on confrontation and Westernization, featuring discussion of the Opium Wars, the Meiji Transformation, and French colonization in Indochina. Part Four covers major events that occurred during World War II, including the communist movements in East Asia during the war. The final part examines the competition and confrontation between the capitalist and communist systems during the Cold War in East Asia. The text features transliteration notes, maps, and an expansive bibliography to provide students with a complete and immersive learning experience. *East Asia and the West* is part of the Cognella History of Asia Series, a collection of books dedicated to helping students explore the exciting, complex, and influential past of Asian countries.

Pachinko (National Book Award Finalist) Min Jin Lee 2017-02-07 A New York Times Top Ten Book of the Year and National Book Award

finalist, Pachinko is an "extraordinary epic" of four generations of a poor Korean immigrant family as they fight to control their destiny in 20th-century Japan (San Francisco Chronicle). NEW YORK TIMES NOTABLE BOOK OF 2017 * A USA TODAY TOP TEN OF 2017 * JULY PICK FOR THE PBS NEWSHOUR-NEW YORK TIMES BOOK CLUB NOW READ THIS * FINALIST FOR THE 2018 DAYTON LITERARY PEACE PRIZE * WINNER OF THE MEDICI BOOK CLUB PRIZE Roxane Gay's Favorite Book of 2017, Washington Post NEW YORK TIMES BESTSELLER * #1 BOSTON GLOBE BESTSELLER * USA TODAY BESTSELLER * WALL STREET JOURNAL BESTSELLER * WASHINGTON POST BESTSELLER "There could only be a few winners, and a lot of losers. And yet we played on, because we had hope that we might be the lucky ones." In the early 1900s, teenaged Sunja, the adored daughter of a crippled fisherman, falls for a wealthy stranger at the seashore near her home in Korea. He promises her the world, but when she discovers she is pregnant--and that her

lover is married--she refuses to be bought. Instead, she accepts an offer of marriage from a gentle, sickly minister passing through on his way to Japan. But her decision to abandon her home, and to reject her son's powerful father, sets off a dramatic saga that will echo down through the generations. Richly told and profoundly moving, Pachinko is a story of love, sacrifice, ambition, and loyalty. From bustling street markets to the halls of Japan's finest universities to the pachinko parlors of the criminal underworld, Lee's complex and passionate characters--strong, stubborn women, devoted sisters and sons, fathers shaken by moral crisis--survive and thrive against the indifferent arc of history. *Includes reading group guide*

A History of Modern East Asia (Preliminary Edition) Mary Hanneman 2015-12-31

East Asia Before the West David C. Kang 2012
From the founding of the Ming dynasty in 1368 to the start of the Opium Wars in 1841, China has

engaged in only two large-scale conflicts with its principal neighbors, Korea, Vietnam, and Japan. These four territorial and centralized states have otherwise fostered peaceful and long-lasting relationships with one another, and as they have grown more powerful, the atmosphere around them has stabilized. Focusing on the role of the "tribute system" in maintaining stability in East Asia and fostering diplomatic and commercial exchange, Kang contrasts this history against the example of Europe and the East Asian states' skirmishes with nomadic peoples to the north and west. Scholars tend to view Europe's experience as universal, but Kang upends this tradition, emphasizing East Asia's formal hierarchy as an international system with its own history and character. His approach not only recasts common understandings of East Asian relations but also defines a model that applies to other hegemonies outside of the European order.

The 'Global' and the 'Local' in Early Modern and Modern East Asia Benjamin A. Elman

2017-01-10 The "Global" and the "Local" in Early Modern and Modern East Asia offers inquiries by scholars in three different institutions (Princeton, Fudan, and Tokyo Universities) into the philosophies and methodologies of global history and how it relates to local stories.

Making Borders in Modern East Asia Nianshen Song 2018-05-03 Song examines the transformation of East Asia through Tumen River border disputes in a period of disaster, turbulence, and war.

A Brief History of Chinese Civilization Conrad Schirokauer 2012-01-06 This compelling text explores the development of China through its art, religion, literature, and thought as well as through its economic, political, and social history. The author team combines strong research with extensive classroom teaching experience to offer a clear, consistent, and highly readable text that is accessible to students with no previous knowledge of the history of China. Historical Perspectives on Contemporary East

Asia Professor of History Emerita Boston

University and Associate of the John K Fairbank

Center for East Asian Research Harvard

University Merle Goldman 2000 In these original

essays, distinguished scholars of modern East

Asia distill from long years of research

interpretive accounts of late nineteenth- and

twentieth-century China, Japan, and Korea. All of

the contributors describe particular features of

the modern experience of East Asian countries,

while also addressing common themes.

Gender in Modern East Asia Barbara Molony

2018-05-04 Gender in Modern East Asia explores the history of women and gender in China, Korea,

and Japan from the seventeenth century to the present. This unique volume treats the three countries separately within each time period while also placing them in global and regional contexts. Its transnational and integrated approach connects the cultural, economic, and social developments in East Asia to what is happening across the wider world. The text focuses specifically on the dynamic histories of sexuality; gender ideology, discourse, and legal construction; marriage and the family; and the gendering of work, society, culture, and power. Important themes and topics woven through the text include Confucianism, writing and language, the role of the state in gender construction, nationalism, sexuality and prostitution, New Women and Modern Girls, feminisms, "comfort" women, and imperialism. Accessibly written and comprehensive, *Gender in Modern East Asia* is a much-needed contribution to the study of the region.

The Genesis of East Asia, 221 B.C.-A.D. 907

Charles Holcombe 2001-06-01 *The Genesis of East Asia* examines in a comprehensive and novel way the critically formative period when a culturally coherent geopolitical region identifiable as East Asia first took shape. By sifting through an impressive array of both primary material and modern interpretations, Charles Holcombe unravels what "East Asia" means, and why. He brings to bear archaeological, textual, and linguistic evidence to elucidate how the region developed through mutual stimulation and consolidation from its highly plural origins into what we now think of as the nation-states of China, Japan, Korea, and Vietnam. Beginning with the Qin dynasty conquest of 221 B.C. which brought large portions of what are now Korea and Vietnam within China's frontiers, the book goes on to examine the period of intense interaction that followed with the many scattered local tribal cultures then under China's imperial sway as well as across its borders. Even the distant Japanese islands could not escape being

profoundly transformed by developments on the mainland. Eventually, under the looming shadow of the Chinese empire, independent native states and civilizations matured for the first time in both Japan and Korea, and one frontier region, later known as Vietnam, moved toward independence. Exhaustively researched and engagingly written, this study of state formation in East Asia will be required reading for students and scholars of ancient and medieval East Asian history. It will be invaluable as well to anyone interested in the problems of ethno-nationalism in the post-Cold War era.

Race and Racism in Modern East Asia Rotem Kowner 2012-11-01 Race and Racism in Modern East Asia juxtaposes Western racial constructions of East Asians with constructions of race and their outcomes in modern East Asia. This groundbreaking volume also offers an analysis of these constructions, their evolution and their interrelations.

Looking Modern Jennifer Purtle 2009 "Looking

Modern: East Asian Visual Culture from Treaty Ports to World War II examines multiple dimensions of visual modernity in East Asia from the nineteenth century through the early decades of the twentieth. The papers were drawn from two symposia held at the Center for the Art of East Asia in the Department of Art History, the University of Chicago, which brought out important themes in East Asian Art and visual culture in the nineteenth and twentieth centuries including photography, cinema, and fashion, changing roles of women, commercialization of art, and the impact of Western cultures. They undertook a broad interpretation of visual modernity to include visual dimensions of human endeavor traditionally seen as outside of artistic production in order to encourage exploration of new and understudied materials across disciplinary boundaries. This volume not only provides important background in the growth of modern visual culture in East Asia, but also is a collection of seminal research on specific topics

that have a broad impact upon present-day visual arts of China and Japan." -- Publisher's description

Disease, Colonialism, and the State Ka-che YIP
2009-01-01 Studying malaria in modern East Asia in the context of the global history of the disease, this book fills an important gap in our understanding of the cultural, social, economic, and political dimensions of the relationship between malaria and human society in a region which has often been neglected by historians of the disease. The authors examine the development and consequences of various anti-malaria strategies in Hong Kong, Okinawa, Taiwan, mainland China, and East Asia as a whole. The British and Japanese colonial models of disease control are explored, as is the later American technological model of DDT residue spraying, promoted by the Rockefeller Foundation which played a significant role in the global anti-malaria campaign and the development of public health in Asia. In the post-

World War II period, the use of DDT and international political and economic interests helped to shape anti-malaria policies of the Nationalist government in Taiwan. In mainland China, the Beijing government's mass mobilization and primary health care model of anti-malaria control has given way to new strategies as recent changes in the health care system have affected anti-malaria efforts and public health developments. This book illuminates an important and largely unexplored dimension of the history of malaria: the interplay of the state (colonial or sovereign), international interests, new medical knowledge and technology, changing concepts of health and disease, as well as local society in the formulation and implementation of anti-malaria policies. It will be of interest to historians of colonialism, medicine and public health, Asia, as well as health and social policy planners. Modern East Asia Jonathan Neaman Lipman 2012 Places the histories of Japan, China and Korea in

a global as well as regional perspective. Modern East Asia details the history of the region while recognizing the intellectual, religious, artistic, economic and scientific contributions East Asians have made to the contemporary world. The three national narratives of China, Japan and Korea are told separately within each chapter, and the text emphasizes connections among them as well as the unique evolution of each society, allowing readers to experience the individual countries' histories as well as the region's history as a whole. The text takes into consideration the radical changes in the field of history in the past 40 years, as the authors have incorporated scholarship in areas such as gender studies, social history and minority histories. While reading social, economic and personal histories, students will uncover the evolution of family structures, peripheral and outcast communities, the sociopolitical power of language and literature, the rise of nationalism and regional trading networks. Attention is also paid to

environmental and diplomatic themes. Note: MySearchLab does not come automatically packaged with this text. To purchase MySearchLab, please visit www.MySearchLab.com or use ISBN: 9780205197019.

Contemporary Southeast Asia Mark Beeson 2009 Southeast Asia is one of the world's most diverse and complex regions. At times it has been a beacon of hope for the developing world, at other times it has been synonymous with insecurity and economic failure. The second edition of this popular and critically acclaimed text has been extensively revised throughout and provides up-to-date coverage of the forces and dynamics that are shaping the region at both the national and regional level. Contemporary Southeast Asia contains specially commissioned chapters – including seven which are entirely new to this edition – from leading area specialists. Carefully edited to ensure systematic coverage of key areas, it provides an accessible and thematically-

structured comparative introduction to Southeast Asia and its distinctive patterns of strategic, political, economic and social organisation.

[A History of Early Modern Southeast Asia, 1400-1830](#) Barbara Watson Andaya 2015-02-19

Written by two expert and highly esteemed authors, this is the much-anticipated textbook on the early modern history of Southeast Asia.

Modern East Asia: An Introductory History David Y Miller 2014-12-18 Written with rare mastery and a sure sense of the essential, this concise general history of modern East Asia offers students and general readers an understanding of this dynamic region from a global perspective. It is the ideal introductory text for college survey courses in Asian and international studies. Following an introductory discussion of the regional concept, the first two chapters lay the foundations. Chapter 1 describes East Asia's geographical, human, cultural, economic, social, and political setting as it has evolved over the past several millennia, and the three major belief

systems - Confucianism, Buddhism, and Islam. Chapter 2 presents a panoramic view of the region ca. 1800. The chapter introduces the "dramatis personae" - the Chinese, Japanese, Koreans, Vietnamese, Thai, Burmese, Indonesians, Filipinos, and others - and describes their interactions with each other and with Imperial China. The following three chapters deal with European expansionism and East Asians' responses to the civilizational challenge; the stirrings of nationalism in reaction to European colonial rule; and the remarkable rise of Imperial Japan. Chapters 6 and 7 trace Japan's bid to lead a pan-Asianist revolt against the twin threats of Western liberalism and Soviet communism, and the ensuing Pacific War. Chapters 8 and 9 span the cold war era, from postwar U.S. hopes for a "Pax Americana" to the division of East Asia into communist and anti-communist blocs. The Sino-Soviet split and the Sino-American rapprochement of the early 1970s open the way to the "East Asian miracle" and a resurgence of

East Asian regionalism, surveyed in Chapter 10. A concluding chapter considers the prospects for continued economic dynamism and the balance of nationalism and pan-Asian trends in shaping the future.

World War Two Legacies in East Asia Chan Yang 2017-10-18 How to remember World War Two in East Asia is a huge source of friction between China and Japan, causing major diplomatic and political difficulties right up to the present. As this book shows, however, there is also disagreement within these countries as to how to remember the war, which in the case of China began immediately after the war and lasted with varying degrees of intensity until the famous "textbook incident" of 1982 marked the beginning of a more strongly anti-Japanese position. Based on extensive original research, the book explores how China's remembrance of the war has evolved over time. It not only explores the roles played by the national as well as local state actors in the formation of the

Chinese war memory, but also pays attention to the individual Chinese people. It considers particular aspects of commemoration in China, explores the corresponding situation in Japan and discusses the continuing impact on the relationship between the two countries.

Modern East Asia Mary Hanneman 2018-11-29 Modern East Asia: A History explores the history of China, Japan, Korea, and Vietnam from the late eighteenth century to the present. The text presents information on each country individually and also demonstrates how historical trends within each nation are linked. The book begins with an introduction to cultural foundations and a brief history of East Asia in the seventeenth century. The volume progresses chronologically, beginning in 1830 with a discussion of th

East Asia in the World Anne Prescott 2015-05-15 From the Foundations in Global Studies series, this text offers students a fresh, comprehensive, multidisciplinary entry point to East Asia. After a brief introduction to the study

of East Asia, the early chapters of the book survey the essentials of East Asian history; important historical narratives; and the region's languages, religions, and global connections. Students are guided through the material with relevant maps, resource boxes, and text boxes that support and guide further independent exploration of the topics at hand. The second half of the book features interdisciplinary case studies, each of which focuses on a specific country or region and a particular issue. Each chapter gives a flavor for the cultural distinctiveness of the particular country yet also draws attention to global linkages. Readers will come away from this book with an understanding of the larger historical, political, and cultural frameworks that shaped East Asia as we know it today, and of current issues that have relevance in Asia and beyond.

Voices of East Asia Margaret Childs 2015-03-12
Voices of East Asia provides significant yet accessible readings in translation chosen to

stimulate interest in the long and rich cultural history of East Asia, the countries of China, Japan, and Korea. The readings range from ancient to modern, elite to popular, and include poetry, stories, essays, and drama. Each section begins with a broad but brief overview of that country's political and cultural history. Each reading is preceded by a concise explanation of its literary and cultural context. As expertise in East Asian studies has exploded in the West in recent decades, a novice could be overwhelmed by all the materials available now. In this volume, however, the reader will find a manageable set of texts that may be read on their own, as part of a world literature course, or as supplementary readings for an East Asian history class. As economic and political news from East Asia sweeps across the world, this anthology aims to provide a taste of the enduring traditions upon which contemporary East Asia is built, a glimpse into the hopes and fears, love and sorrow in the hearts of the people behind the headlines. This

anthology will be welcomed by students and scholars of Asian history, culture, society and literature.

A History of East Asia Charles Holcombe
2017-01-11 The second edition of Charles Holcombe's acclaimed introduction to East Asian history from the dawn of history to the twenty-first century.

East Asia Beyond the History Wars Tessa Morris-Suzuki 2013 East Asia is now the world's economic powerhouse, but ghosts of history continue to trouble relations between the key countries of the region, particularly between Japan, China and the two Koreas. Unhappy legacies of Japan's military expansion in pre-war Asia prompt on-going calls for apologies, while conflicts over ownership of cultural heritage cause friction between China and Korea, and no peace treaty has ever been signed to conclude the Korean War. For over a decade, the region's governments and non-government groups have sought to confront the ghosts of the past by

developing paths to reconciliation. Focusing particularly on popular culture and grassroots action, *East Asia beyond the History Wars* explores these East Asian approaches to historical reconciliation. This book examines how Korean historians from North and South exchange ideas about national history, how Chinese film-makers reframe their views of the war with Japan, and how Japanese social activists develop grassroots reconciliation projects with counterparts from Korea and elsewhere. As the volume's studies of museums, monuments and memorials show, East Asian public images of modern history are changing, but change is fragile and uncertain. This unfinished story of East Asia's search for historical reconciliation has important implications for the study of popular memory worldwide. Presenting a fresh perspective on reconciliation which draws on both history and cultural studies, this book will be welcomed by students and scholars working in the fields of Asian history, Asian culture and

society as well as those interested in war and memory studies more generally.

Beyond Alterity Qinna Shen 2014-07-30 With the economic and political rise of East Asia in the second half of the twentieth century, many Western countries have re-evaluated their links to their Eastern counterparts. Thus, in recent years, Asian German Studies has emerged as a promising branch within interdisciplinary German Studies. This collection of essays examines German-language cultural production pertaining to modern China and Japan, and explicitly challenges orientalist notions by proposing a conception of East and West not as opposites,

but as complementary elements of global culture, thereby urging a move beyond national paradigms in cultural studies. Essays focus on the mid-century German-Japanese alliance, Chinese-German Leftist collaborations, global capitalism, travel, identity, and cultural hybridity. The authors include historians and scholars of film and literature, and employ a wide array of approaches from postcolonial, globalization, media, and gender studies. The collection sheds new light on a complex and ambivalent set of international relationships, while also testifying to the potential of Asian German Studies.
