Bedini RPX John Bedini 2016-07
Both the Rife healing machines, the Rife microscope and the Prioré healing machines appeared to have stunningly successful results. It was not fully understood how or why they accomplished such results till now. What were the electromagnetic principles of the machines that they so famously built? Why have so many so-called replications failed or fallen short? After over three decades of research, John Bedini answers all these questions, and more, in this newly released DVD and booklet. In the beginning of this book,

Bedini walks us through his initial introduction and instruction in the Rife technologies. John goes through both the deliberate and often inadvertent obfuscation of what Rife's healing frequencies were, and how they were propagated. His circuits, charts and notes are shared with readers and spectators as he lays out in meticulous detail what Rife and Prioré accomplished in the past. John Bedini has finally solved the puzzle.

Safecracker Dave McOmie
2021-06 Dave McOmie is a safecracker so extraordinary and deft that banks and insurance companies pay him to open their safes. He leads an extraordinary life traveling the country breaking into safes thieves covet. And he gets paid very well to do it. Like a character in a Hitchcock movie, McOmie unlocks unopenable locks, deciphers unbreakable codes and penetrates seemingly impenetrable doors of vaults and safes. Along the way he has had many edge-of-your-seat adventures, including a recent job of unlocking the safe belonging to the late rock star, Prince. McOmie took the industry by storm, and his vivid descriptions of life as a master safecracker made him a popular columnist virtually overnight. His occupation is ruled, quite unforgivingly at times, by precise measurements for exploiting design vulnerabilities in safes and vaults. You either

have these measurements -- known as drill points -- or you don't. McOmie has them, and readers of Safecracker will read them with armchair delight. McOmie is the safecracker's safecracker, a leading member of the elite cadre engaged in opening safes and vaults for banks, insurance companies and estates. He's a rock star in his profession, editor of International Safecracker magazine (50,000 subscribers) and webmaster for a worldwide forum. In Safecracker he explains what brought him to his unique brand of fame with stories of opening the world's toughest safes.
