From the Jungles to the

Cathedrals Juan Carlos Ortiz 2011-08-09 Dr. Juan Carlos Ortiz narrates the story of how he went from the jungles to the cathedrals. Through the pages of this book, he leads the reader on his journey from his humble beginnings with an alcoholic father, to when Jesus, in the form of two missionaries,

transformed his life. In spite of his mother's resistance to waste any time on "nonsense", their persistence to share the good news of the gospel paid off. They spoke the words her broken heart longed to hear. Jesus became their provider, their comforter, their joy. Although his mother couldn't meet all their needs through her work, supernaturally they always had enough. The impossibility of him and his siblings to attend school was suddenly a possibility. As a young man, Dr. Ortiz feels the need to serve the One who changed their lives. He enters into the seminary beginning his journey into the ministry. Along the way he is influenced by great international leaders like Tommy Hicks, who leave a lasting impression on his life. Soon after, he becomes pastor of the Crystal Cathedral in California, one of the most important churches in the United States.

Leonard's Price Index of Latin American Art at Auction Susan Theran 1999-11-29 The new Leonard's Price Index of Latin American Art at Auction focuses on a category of art that covers a wide range of periods and styles. It is unique in its coverage of 30 years of sale results and the inclusion of over 1,100 scholarly essays and biographies, some never before published in the English language. Entries, covering the years 1969 to 1999, number over 30,000 lots. The prices realized are from every auction house in North America and are listed in descending order by price within each auction season.

The Jungles of Arkansas Bob Lancaster 1989-07 When H. L. Mencken wrote about "the miasmatic jungles of Arkansas," he was referring to the relative obscurity and uncertain image that Arkansas has enjoyed—or suffered from—throughout its history. In these entertaining and

sometimes quirky essays, Lancaster sheds light on that image by analyzing the stereotypes that have characterized the state since its very beginning.

Organizing Age Stephen Fineman 2011-05-05 Age is the silent shaper of work organizations and their human resource practices. It has become a potent feature of how society is structured and how it views itself. Age assumptions mould the behaviours of young and old alike, and are used as political tools by policy makers and managers. Organizing Age asks the perennial question - can age ever not matter?

Drawing on range of social scientific and popular writings, this book casts a critical eye over the social construction and politicization of age in and beyond organizations. Amongst other topics, it discusses: the historical roots of age in society; how we 'perform' our age in different settings; the social impact of defining age groups as generations; ageism; the effect of an age-cluster on an organization's processes

and members' experience; the rituals of retirement and the birth of the retirement industry; the impact of economic recession in challenging some of our assumptions about age; and the increasing politicization of the growing 'grey' population. *Organizing Age* provides an accessible introduction to the current and emerging themes around this topic, which will be an invaluable resource for students, academics, and policy makers.

From the Plains of Africa to the Jungles of Parliament

Barry Turner 2012-11-01 In the first part of the book, the author regales us with real-life

adventures as a Game Warden in the Mkomazi Game Reserve in Northern Tanzania. The work chronicles encounters with such luminaries as Patrick Hemingway and the President of Tanzania. The book takes you on journeys on Mount Kilimanjaro, through the Serengeti Migration and hunting and conservation experiences with and for Africa's great animals. The second part of this autobiography deals with Turner's exciting life in Canadian politics where he was elected as a Progressive Conservative Member of Parliament. You will read about his encounters in this "jungle" with such historical figures as Gorbachev, Sir Edmund Hillary and many other iconic personalities.

[Born in the Jungles of Burma](#)

Andrew Wax 2010-08-11 This researcher examined the evolution of warfare in an unforgiving environment, necessitating an innovative method of warfare never attempted on a large scale. It details the early history of air supply and support near the end of WWI up to and including the war in Europe in 1939 and the expanding war in Asia following the December 1941 Japanese attack on Pearl Harbor and subsequent offensives in southeast Asia. The China-Burma-India Theater (CBI) became an important component of Allied efforts. Low in Allied priority, the difficulties encountered by the Southeast Asia Command (SEAC) increased. Burma, a British colony, was a region with few all-weather roads; the only rail lines available were in enemy hands 150 miles inside Japanese lines. Temperatures reached 110 degrees Fahrenheit with rainfall as much as 200 inches per year. Additionally, the nearest friendly seaport was more than 500 miles away. The Allied

offensive, scheduled for the spring of 1944, incorporated a multi-pronged ground attack on three different Japanese fronts. To achieve success, it was essential to develop the only logical means of sustainability for ground forces: Air Supply and Support. Described herein are the efforts of the United States Army Air Forces (USAAF) and the Royal Air Force (RAF), creating a singularly unique air unit: Air Commando 1. The coordination of Allied tactics and doctrines were worked out with a clear delineation of the chain of command. When Air Commando 1 arrived in India, the framework that became the Allied offensive, codenamed "Operation THURSDAY" was laid. For the survival of soldiers contracting one of the numerous diseases (Burma has the largest number of snakes per square mile) or suffering from combat related wounds and injuries, it was essential to receive quick medical attention. It was in the CBI that SEAC established an effective method of air evacuation that

made the difference between life and death. The research unearthed most of the heretofore publicly unknown aspects of the campaign, explored in the author's thesis, which indicate that the first sustained effort of air supply and support deep within enemy-held territory established a vital method of warfare deployed in subsequent wars.

Monster of God: The Man-Eating Predator in the Jungles of History and the Mind David Quammen 2004-09-17 "Rich detail and vivid anecdotes of adventure....A treasure trove of exotic fact and hard thinking."

—New York Times Book Review For millennia, lions, tigers, and their man-eating kin have kept our dark, scary forests dark and scary, and their predatory majesty has been the stuff of folklore. But by the year 2150 big predators may only exist on the other side of glass barriers and chain-link fences. Their gradual disappearance is changing the

very nature of our existence.

We no longer occupy an intermediate position on the food chain; instead we survey it invulnerably from above—so far above that we are in danger of forgetting that we even belong to an ecosystem.

Casting his expert eye over the rapidly diminishing areas of wilderness where predators still reign, the award-winning author of *The Song of the Dodo* and *The Tangled Tree* examines the fate of lions in India's Gir forest, of saltwater crocodiles in northern Australia, of brown bears in the mountains of Romania, and of Siberian tigers in the Russian Far East. In the poignant and troublesome ferocity of these embattled creatures, we recognize something primeval deep within us, something in danger of vanishing forever.

The Malayan Emergency & Indonesian Confrontation

Robert Jackson 2011-05-18 The struggle with Communist terrorists in Malaya known as *The Emergency* became a textbook example of how to fight a guerrilla war, based on

political as much as military means. This book deals with both the campaign fought by British, Commonwealth and other security forces in Malaya against Communist insurgents, between 1948 and 1960, and also the security action in North Borneo during the period of Confrontation with Indonesia from 1962 to 1966. Both campaigns provided invaluable experience in the development of anti-guerrilla tactics, and are relevant to the conduct of similar actions which have been fought against insurgent elements since then. The book written with the full co-operation of various departments of the UK Ministry of Defence contains material that until recently remained classified. This is the first full study to cover the role of airpower in these conflicts. It will be of relevance to students at military colleges, and those studying military history, as well as having a more general appeal, particularly to those servicemen and women who were involved in both campaigns.

Cops, Jungles, and Santa Claus

Larry D. Flora 2008-04-07 The Author has had an exciting life. This work is a summation of Larry's many exciting adventures: In actual contacts (conflicts) with our police and highway patrol; In the Jungles of Africa; In College; As a salesman; Life in General; and

as Santa Claus. The stories are true, and when there is an occasional variation from the truth for the sake of excitement, Larry will give you the honest facts. The stories share exciting experiences that are worth sharing; Morals that are worth re-telling; and numerous events that you will enjoy reading more than once. Many readers will find this book a special gift to pass along to relatives and friends. Because Larry loves to tell jokes, many of his favorites (clean jokes) are found between the chapters of his life.

The Jungle Books Rudyard Kipling 2014-09-08 Rudyard Kipling was born in India in 1865 and spent his early years reveling in the country's exotic delights. At five he was sent to school in England, and did not return until 1882, when he worked as a reporter on the 'Civil and Military Gazette'. A prolific writer, he soon became famous for a prodigious range of tales and poems, from the high adventure of 'The Man Who Would Be King', through

the gritty doggerel of 'Barrack Room Ballads' to charming children's story such as 'Puck of Pook's Hill' and, perhaps his most celebrated offering, 'The Jungle Book'. Although it includes such famous tales as 'Rikki-Tikki-Tavi' The Jungle Book's true hero is Mowgli, a young boy raised with wolves, and hunted by the evil tiger Shere Khan. All is well until the realization dawns in Mowgli that he is human - knowledge he tries to repress as he is appalled by humankind's greed and destructiveness. Through a series of perils and adventures, Mowgli gradually comes to terms with the animal and human facets of his life. Like all good children's stories, these tales have a depth of allegory and symbolism that allows them to be enjoyed by adults as well as children. 'The Jungle Book' is a work that can be read throughout a lifetime - one that will bring pleasure and further insights at each reading.

The Tropical Agriculturist and Magazine of the Ceylon Agricultural Society 1908

Concrete Jungles Rivke Jaffe
2016-04-26 In the popular imagination, the Caribbean islands represent tropical paradise. This image, which draws millions of tourists to the region annually, underlies the efforts of many environmentalists to protect Caribbean coral reefs, mangroves, and rainforests. However, a dark side to Caribbean environmentalism lies beyond the tourist's view in urban areas where the islands' poorer citizens suffer from exposure to garbage, untreated sewage, and air pollution. *Concrete Jungles* explores the reasons why these issues tend to be ignored, demonstrating how mainstream environmentalism reflects and reproduces class and race inequalities. Based on over a decade of research in Kingston, Jamaica and Willemstad, Curaçao, Rivke Jaffe contrasts the environmentalism of largely middle-class professionals with the environmentalism of inner-city residents. The book combines a sophisticated discussion of the

politics of difference with rich ethnographic detail, including vivid depictions of Caribbean ghettos and elite enclaves. Jaffe also extends her analysis beyond ethnographic research, seeking to understand the role of colonial history in shaping the current trends in pollution and urban space. A thorough analysis of the hidden inequalities of mainstream environmentalism, *Concrete Jungles* provides a political ecology of urban pollution with significant implications for the future of environmentalism.

Modern Jungles Pao Lor
2021-02-17 As a five-year-old boy, Pao Lor joined thousands of Hmong who fled for their lives through the jungles of Laos in the aftermath of war. After a difficult and perilous journey that neither of his parents survived, he reached the safety of Thailand, but the young refugee boy's challenges were only just beginning. Born in a small farming village, Pao was destined to be a Hmong clan leader, wedding negotiator, or shaman. But the course of his life changed

dramatically in the 1970s, when the Hmong faced persecution for their role in helping US forces fighting communism in the region. After more than two years in Thai refugee camps, Pao and his surviving family members boarded the belly of an "iron eagle" bound for the United States, where he pictured a new life of comfort and happiness. Instead, Pao found himself navigating a frightening and unfamiliar world, adjusting to a string of new schools and living situations while struggling to fulfill the hopes his parents had once held for his future. Now in *Modern Jungles*, Pao Lor shares his inspiring coming-of-age tale about perseverance, grit, and hope. Included are discussion questions for use by book clubs, in classrooms, or around the dinner table.

Tales from Concrete Jungles

David Lindo 2015-06-18 Born and raised in London, David Lindo's passionate interest in the natural world, especially birds, began at an early age. His thriving curiosity opened a

door for him into an unexplored world of urban birding. Years later he decided to champion the delights of birding in cities and reinvented himself as the Urban Birder. Using this illustrious alias David Lindo has brought urban birding back into the public consciousness, promoting its virtues at every opportunity and writing about it in the birding press. He urges people to look up when walking around in cities, or to stop and close your eyes in a busy street just to listen to the birds that may be singing. In his second book, David visits some of the world's most unnatural environments, revealing the astonishingly diverse range of wildlife that can be found when you take the time to look. Much more than a compendium of birding sites, each tale follows the Urban Birder in his enthralling pursuit of city birding. Accompanied by dedicated local conservationists and renowned birders, David gives a deeper insight into the true nature of each city. Featuring 70

locations to explore, *Tales from Concrete Jungles* is the perfect book to dip in to when on the move, or to hide away with on a rainy afternoon. Join David in his celebration of nature, pick up travel inspiration, and immerse yourself in his captivating quest for urban birding.

Dancing with the Dinosaur

William Lareau 1994 The purpose of this book is to present you with a new perspective about work and business -- new behaviors, new expectations, new theories. In order to do this, it is necessary to disrupt and challenge the strongly ingrained but outmoded and ridiculous assumptions that you've been taught about business by well-meaning parents, teachers, and by society. An important element of this book's strategy for challenging the old and teaching the new is to create and place you in a make-believe business jungle, replete with dinosaurs. This jungle and its dinosaurs are metaphors for the normal business world and the people who work in it. In order to strengthen the impact, all the dinosaurs are given special names. At first these names will seem strange and difficult to pronounce. Very quickly though, the names will become familiar and even endearing as you begin to internalize the concepts.

In Green's Jungles Gene Wolfe

2007-04-01 Gene Wolfe's *In Green's Jungles* is the second volume, after *On Blue's Waters*, of his ambitious SF trilogy, *The Book of the Short Sun*. It is again narrated by Horn, who has embarked on a quest from his home on the planet Blue in search of the heroic leader Patera Silk. Now Horn's identity has become ambiguous, a complex question embedded in the story, whose telling is itself complex, shifting from place to place, present to past. Horn recalls visiting the Whorl, the enormous spacecraft in orbit that brought the settlers from Urth, and going thence to the planet Green, home of the blood-drinking alien inhumis. There, he led a band of mercenary soldiers, answered to the name of Rajan, and later became the ruler of a city state. He has also encountered the mysterious aliens, the Neighbors, who once inhabited both Blue and Green. He remembers a visit to Nessus, on Urth. At some point, he died. His personality now seemingly inhabits a different

body, so that even his sons do not recognize him. And people mistake him for Silk, to whom he now bears a remarkable resemblance. In Green's Jungles is Wolfe's major new fiction, The Book of the Short Sun, building toward a strange and seductive climax. "Wolfe's narrative glows, rich and seductive as ever."--Kirkus Reviews At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.
